Attention: Lodi City Council; c/o: Jennifer Perrin, City Clerk

Dear Ms. Perrin:

I am, via this letter, requesting a permit to operate my hot dog carte on School Street at the site of the downtown post office. I feel confident this type service will blend well with the current "Downtown Revitalization" program and would benefit the City of Lodi and the Downtown Merchants, as well as me.

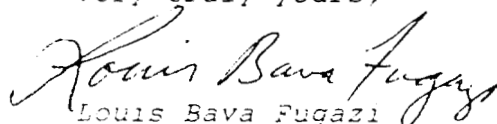

Although the post office is located at the center of the "downtown hub" there are no deli's or quick "in/out" food facilities on School Street, or within a close proximity. My carte provides prompt, friendly service without sit-down provisions. This enables people the opportunity to grab a tasty lunch or snack while leaving them plenty of time to shop and run errands in the downtown area.

I have talked with several of the areas merchants about locating this type of quick food service in downtown. They like the idea and agree that it has the potential to increase the foot traffic which, as a result, could increase their business.

As you are aware, I have held the concessions contract at Lodi Lake for the past two years. I have all of the necessary licenses, permits and insurance to operate a food carte. My unit has been inspected and approved by all appropriate health agencies. In addition to my contract with the City Parks and Rec Dept. I also furnish concessions for the BOBS sports events, the Farmer's Market and many other local functions.

I sincerely hope this proposal can be arranged. If you have any questions or require addition information, please let me know. Thank you for your consideration.

Very truly yours,

Louis Bava Fugazi
